Drift 20 Sleeping Bag - Owner's Manual

Specifications

Item	Value
Comfort rating	32°F
Lower limit	20°F
Fill	Synthetic insulation
Weight	3.1 lb

Washing

Machine wash on a gentle cycle in cold water, in a front-loading machine only. Top-loading machines with an agitator can tear the baffles. Use a mild, non-detergent soap.

Tumble dry on low heat with two clean tennis balls to break up clumps.

Storage

Store the bag loose in the large mesh sack, not in the compression sack. Long-term compression reduces loft and warmth.
