Glacier 45 Cooler - Owner's Manual

Specifications

Item	Value
Capacity	45 quarts
Ice retention	Up to 5 days
Empty weight	23 lb
Drain	Threaded drain plug with tether

Ice retention was measured at 70°F with a pre-chilled cooler, a 2:1 ice-to-contents ratio and the lid kept closed.

Getting the most ice life

Pre-chill the cooler with a bag of sacrificial ice the night before. Keep it out of direct sun and open the lid as little as possible.

Cleaning

Wash with warm water and mild dish soap. Do not use bleach or abrasive cleaners. Leave the lid open to dry completely before storage.
