# Volt 10K Power Bank - Owner's Manual

## Specifications

| Item | Value |
|---|---|
| Capacity | 10,000 mAh (37 Wh) |
| Ports | 1 USB-C (20W in/out), 1 USB-A (12W out) |
| Recharge time | About 3 hours with a 20W USB-C charger |

## Air travel

The Volt 10K is rated at 37 Wh. Most airlines allow power banks under 100 Wh in carry-on luggage only. Check your airline's rules before you fly.

## Storage

For long-term storage, charge to about 50% and recharge every 3 months.
